The attempt of the Burlington Free Press to drag the name of Middlebury College in the dust has met with a deserved protest from the people and press of the state. Mrs. Ernest C. Bryant spoke at the Y. W. C. A. meeting last Tuesday evening upon "The World Christian in England." Mrs. Bryant's talk consisted of her personal experiences in England and the impressions she received of the English women during the year which she spent in the city of Cambridge. She was especially impressed by the way in which the English women made their social contacts worthwhile and by the efforts which they made to touch each class. She told of the settlement work which they | 71 Main Street carried on, the diet kitchens which they maintained for the poor of London and the investigations and propaganda that they made in favor of the sweat shop workers. Mrs. Bryant spoke of the individualistic attitude of the English women, who approach every problem with the query, "What am I doing?" not "What is being done?" She said that the impress left upon her own life by her associations with the English women was a social, intellectual and spiritual quickening.

Talk It Over At Home

A Christmas Vacation Suggestion To Seniors

HIS is your last year in college. This is your last Christmas vacation. Your career after graduation is a question

that you will want to talk over with the folks at home. They will be even more interested than you are. Now is the time to do it.

The John Hancock has in its field organization producers who began as life insurance men immediately after graduation and have made a conspicuous success of it.

Why waste time trying out something else which looks "just as good" and then come into the life insurance work to compete with the man who got into the game from the start?

Talk it over at home and remember that you can get information and helpful advice by addressing
